

Physical Medicine, Sleep Medicine and radiology program participation

Our Physical Medicine, Sleep Medicine and radiology programs apply to Regence members residing in Idaho, Oregon, Utah and Washington. This document identifies groups included and excluded from each program.

Prior to requesting authorization or an order number, please be sure to:

1. Verify member benefits and eligibility for services on the [Availity Portal](#).
2. Review our [complete pre-authorization lists](#) for all codes that require authorization or notification. Several spine procedures require pre-authorization outside of our Physical Medicine program. Failure to pre-authorize services subject to pre-authorization requirements will result in an administrative denial, claim non-payment and provider and facility write-off. Members may not be balance billed.
3. Review this document to determine if a member's group participates in our programs.

Tip: To search this document, press Ctrl + F (on a PC) or Command + F (Macintosh).

Physical Medicine

Our Physical Medicine program is conducted by [eviCore healthcare](#) (eviCore) and includes the following components:

- Spinal surgeries
- Pain and joint management
- Physical medicine and therapies (physical [PT], occupational [OT], speech [ST] and massage therapies; acupuncture and chiropractic/manipulation treatments)

Notes:

- eviCore may indicate that prior authorization is no longer required for an episode of care until an initial evaluation and management visit and up to six treatments have been performed. This applies to:
 - Regence BlueShield group and Individual members
 - Regence BlueCross BlueShield of Oregon group and Individual members on one of our Clark County, Washington products
 - Regence BlueShield of Idaho group and Individual members on one of our Asotin and Garfield County, Washington, products
- If additional care is necessary beyond the six treatment visits, please contact eviCore.
- There may be other pre-authorization requirements for spinal surgery, pain or joint management. Please review our [complete pre-authorization lists](#) for details. For questions, please call the number on the member card.

Members 17 and younger

Select pediatric diagnoses are excluded from authorization requirements for therapy and complementary care services for enrolled dependents 17 and younger. Services are still subject to benefit limitations. Please review our [complete pre-authorization lists](#) for other pre-authorization requirements. [These diagnosis codes \(PDF\)](#) do not require an authorization from eviCore Healthcare for:

- Acupuncture
- Physical, occupational, speech and massage therapies
- Chiropractic/manipulation treatments codes

Sleep Medicine

Our Sleep Medicine program is conducted by [AIM Specialty Health® \(AIM\)](#). Physicians and other health care professionals ordering the services listed below must first contact AIM to request an order number prior to rendering the following services:

- Titration studies
- Home sleep testing (HST)
- Oral appliances for sleep therapy
- In-lab sleep studies (Polysomnography [PSG])
- Initial treatment order (automatic positive airway pressure [APAP], continuous positive airway pressure [CPAP], bilevel positive airway pressure [BiPAP])
- An ongoing treatment order (APAP, CPAP, BiPAP)

The Sleep Medicine program applies to procedures performed in:

- Free-standing sleep centers
- Outpatient hospital settings
- Outpatient basis in a physician office

Providers should contact AIM to obtain an order number before scheduling or performing any elective outpatient home-based (unattended) diagnostic study or a facility-based diagnostic or titration study (free-standing or hospital), as well as for sleep treatment equipment and related supplies. Authorization for ongoing sleep therapy will depend on member compliance data provided to AIM by the durable medical equipment (DME) vendor.

Note:

- Supplies for APAP, CPAP, BiPAP do not require pre-authorization.
- Compliance information for APAP, CPAP, BiPAP must only be submitted during the rent-to-purchase time period. Once the equipment has been purchased, we do not require compliance information.

Services performed in conjunction with any of the following are excluded from the program:

- Urgent care facilities
- Inpatient hospitalization
- Emergency room services

Radiology

Our radiology program is conducted by AIM and has two components:

1. **Radiology Quality Initiative (RQI)** – Ordering or referring non-radiological physicians and other health care professionals must contact AIM to obtain an order number before scheduling an elective outpatient diagnostic imaging procedure. If an order number is not obtained from AIM prior to the imaging procedure being performed, the procedure will be considered a provider write-off and cannot be billed to the member.
2. **Advanced Imaging Authorization** – Advanced imaging services/procedures are reviewed by AIM for medical necessity
 - If AIM determines that the service does not meet medical necessity criteria, the requested service/procedure will be denied and an order number will not be provided.

Services or procedures performed without an approved order number will be considered a provider write-off and cannot be billed to the member.

ASO/self-funded groups

Regence administers medical benefits for self-funded group plans, also known as administrative services only (ASO). ASO groups establish their own benefits, and Regence is the third party that administers their benefit plans. ASO groups can customize their plans and may not be subject to Regence administrative guidelines.

An [ASO group](#) may decide to purchase some or all of our radiology, Sleep or Physical Medicine programs during their annual renewal period. Renewal periods can vary by month, depending upon the group. It is therefore important to check this list for participation monthly. View the ASO member card using the Availity Portal.

Spinal surgery: ASO groups that do not participate in our medical management programs may have separate pre-authorization requirements with Regence. If you contact eviCore to pre-authorize a spinal surgery and you receive the message below, please review our pre-authorization lists for spinal surgery codes that require pre-authorization:

No pre-authorization required at this time. Please note if this is for a spinal surgery, there may be additional pre-authorization requirements with your Health Plan. Please check the Health Plan's pre-authorization list on their provider website.

Joint administration

[Joint administration](#) describes a partnership between Regence and a third-party administrator (TPA). The TPA receives pre-authorization requests, supports members and manages member benefits. Questions about pre-authorization and requests should be directed to the TPA, as indicated on the member card.

All Regence members participate in all program components for radiology, Sleep Medicine and Physical Medicine unless indicated otherwise in the following tables.

All other ASO groups (see table beginning next page)	Yes	Participation varies by group. 1) If a group is listed in the table starting on the next page , they participate in our RQI program. They do not participate in our Advanced Imaging, Physical Medicine or Sleep Medicine programs. 2) If a group is not listed in this document , please confirm Physical Medicine program participation with eviCore. *eviCore may indicate that prior authorization is not required until after the sixth consecutive treatment visit. If additional care is necessary beyond the six treatment visits, please contact eviCore.			

Groups who participate in RQI but exempt from the Physical Medicine and Sleep Medicine programs

The groups in this table participate in our RQI program, but **do not participate** in our Advanced Imaging, Physical Medicine and Sleep Medicine programs. Groups may have other pre-authorization requirements for spinal surgery, pain or joint management. Review our [complete pre-authorization lists](#) for details.
