

Medicaid Provider Enrollment Requirements by State

AS OF MARCH 1, 2016

Purpose: The purpose of this document is to provide information on state specific provider enrollment requirements for states where BCBS Plans offer Medicaid products. This document will be updated as BCBS Medicaid Plans provide updated requirement information.

Background: State Medicaid agencies contract with Blue Cross and Blue Shield Plans as Managed Care Organizations (MCOs) to provide comprehensive Medicaid benefits on a risk basis. Federal regulations guide these relationships, but the eligible population, covered benefits and specific rules regarding each state’s Medicaid program may differ from state to state. Many state Medicaid programs require providers to enroll as Medicaid providers with the state Medicaid agency before payment can be issued. In some cases, state Medicaid programs requiring provider enrollment will accept a provider’s Medicaid enrollment in the state where the provider practices. Information in this document was confirmed by the BCBS Plans that have Medicaid business in the states listed.

Provider Instructions: Please refer to the table below for state specific Medicaid provider enrollment requirements if your claim has been denied and you have received notice from a BCBS Plan that the state where the member is enrolled in Medicaid requires that providers enroll in their Medicaid program before the BCBS Plan can issue payment.
