Virtual and primary health care at low to no cost

Connect virtually with board-certified physicians at a low copay or choose one of our plans that cover virtual medical care in full. Visit your primary care provider for checkups and to manage chronic conditions. Also get guidance to the most appropriate care by chatting with certified nurses.

Virtual care saves a vacation

“We were on vacation in the middle of nowhere. This option saved me a two-hour round trip to the ER. That would have cost me a fortune. So thankful for this option.”

Which plan is right for me?

Choosing a health insurance plan is a big decision—one that impacts your health and your wallet. We’re here to help you find affordable health insurance that meets your needs. You can shop for a plan directly with us or on the Health Insurance Marketplace, where you’ll find Regence plans. Below is a short description of the different plan types we offer.

Traditional

Traditional plan designs with low-cost access to providers and no referrals needed. Most plans include coverage for office visits, specialists, mental health, generic medications and alternative care.

Essential

Lower premiums in exchange for higher out-of-pocket costs, so you can save if you don’t need to visit the doctor often. Plus, you get four office visits to a primary care provider, specialist or urgent care clinic covered before you meet your deductible.

Standard

Predictable out-of-pocket costs on medications and provider visits, along with more services covered before you meet the deductible.

Health Savings Account (HSA)

Use pre-tax HSA dollars to pay for qualified expenses and help offset your out-of-pocket health care spending. There’s no deductible for prescriptions on our Optimum Value Medication List on most plans.

SaveWell

These plans are designed to provide access to doctors and specialists at a budget-friendly price, offering quality care at a lower cost.

How do I choose a plan?

When considering which plan is right for you and your family, it’s important to identify how much care you and your family expect to need. Do you take medications regularly or have a chronic condition? What about additional coverage and benefits? Your answers can help you determine how to balance your deductible, premium and out-of-pocket costs to best fit your needs. Learn more about how each plan type may fit your individual health situation on our [site](#).

It’s also important to consider the network. Selecting a plan with the broad Individual and Family Network gives you more options for care. If you live in the greater Salt Lake City area, Regence SaveWell Network plans offer access to doctors and specialists through the Steward Health Care system, offering quality care at a lower cost.

Which metal level is right for me?

Gold plans are a good option if you expect to need a lot more than preventive care over the course of the year. On the opposite end, Bronze plans are a good fit if you’re generally healthy and don’t often need care. Silver plans strike a balance between premium and out-of-pocket cost and may qualify for cost-sharing savings if you’re eligible.

Do I qualify for subsidies?

You can see whether you qualify for premium tax credit savings through [healthcare.gov](#). If you don’t qualify, it may be more affordable to shop directly with us at [regence.com](#).
